Our Services

Discovery

Before considering a job we need to know the person. We will spend a few months getting to know what they are good at, what they are interested and under what conditions they work best.

Customised Plan for Employment

After finishing Discovery we will develop a plan for employment. To do this we might help to run a meeting with people who know the person well

Job Development

We will use the Customised Plan for Employment to target employers and negotiate a position for the person. This may involve job carving, or creating a completely unique role

"Having a job has given me confidence and helped me to meet new people. I am even paying off my own mortgage, something I never thought I would do"

Better Together

We Are Better Together

We believe that the City of Moreton Bay is a better place when all of its members are included in valued roles and relationships in the social, economic and civic life of the community.

Better Employment

Better Together

What is Customised Employment?

Customised Employment is a way to help people who face significant barriers to employment, by creating work that fits their skills, interests, and needs.

Through a process called Discovery, it looks at what a person is good at and enjoys, then finds or designs a job that works well for both them and the employer.

Would you like to know more about how we can find you a job?

Master Shredder

Emma Lynam's business, Master Shredder, intially focused on her unique strengths and interests. Emma doesn't read, making her a perfect fit for securely shredding sensitive materials.

Combining this skill with her interest in shredding, she and her support team created a business that provides valuable document destruction services to the local community in Townsville, turning her abilities into a thriving enterprise
